ABOUT US

We are a Polish company with family traditions operating since 1998. Our mission is to create healthy, vegetable products with simple compositions and to promote a healthy lifestyle.

Our products do not contain artificial dyes, preservatives or taste enhancers as they are created for people who value high quality ingredients of the foodstuffs they eat. The raw materials we use for production are GMO free, come primarily from local farmers and reliable sources.

We make our products in a traditional way, using pasteurisation, which makes them keep their nutritional value. We also apply glass packaging, as it is safer for raw materials and has a positive environmental impact.

With the utmost care and true passion, we develop recipes, cook, season... to finally be able to offer our consumers our most valuable asset - healthy and tasty products with simple compositions.

OUR CATEGORIES:

- roasted nut pastes,
- vegetable pastes, paprikas and hummus,
- vegan dinner dishes,
- Primaeco organic products.

OUR OFFER INCLUDES GLUTEN-FREE PRODUCTS

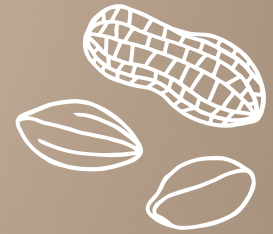

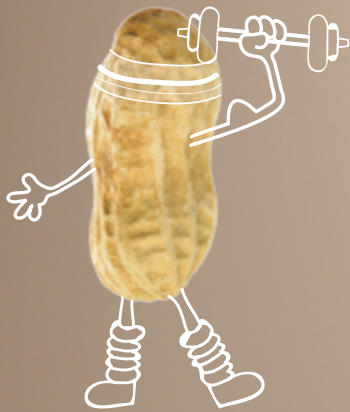

These products are marked with the symbol of crossed ear of wheat and license number, which guarantees that they do not contain proteins of wheat, rye, barley, triticale, oats (except for special oats marked as gluten-free) or any raw materials with their addition. At the same time, these products are not contaminated with gluten in the production process. Therefore, they are safe for people with celiac disease and on a gluten-free diet.

LICENSED SYMBOL OF CROSSED EAR OF WHEAT MEANS:

- a common mark for gluten-free products throughout Europe,
- audited production facilities,
- regular inspection of products for gluten content,
- certainty and security for the consumer.
